**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-8, 10-14, 16-29, 31-34, and 36-41 are allowed.

The following is an examiner's statement of reasons for allowance: As independent claims were read in light of the specification, the prior art of record fails to disclose or render obvious a method for processing materials comprising passing materials to be processed in a flow path through an annular processing passage between two closely-spaced smooth surfaces provided by respective inner and outer cylindrical apparatus members at least one rotating relative to the another, the height of the annular processing passage is small enough, the cylindrical apparatus members rotate relative to each other rapidly enough and the two closely-spaced smooth surfaces are smooth enough such that the materials are essentially free of Taylor vortices, and irradiating the materials in the processing passage with processing energy passing through at least one window of one of the two members, wherein the height of the annular processing passage is less than the penetration depth of the processing energy into the materials to be processed.

The closest prior art of record, Bischof et al., and Holl, teach a method for processing materials comprising passing materials to be processed in a flow path through an annular processing passage between two closely-spaced smooth surfaces provided by respective inner and outer cylindrical apparatus members at least one rotating relative to the another and irradiating the materials in the processing passage with processing energy passing through at least one window of one of the two members. They are silent to the claimed elimination of

Taylor vortices through reducing the height of the annular passage, rotation speed, smoothness, and penetration depth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
